New Listings

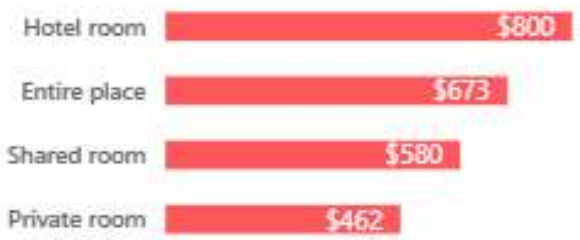

In 2025, Airbnb reached the highest number of new listings. 2016 and 2017 saw a restraint also due to a tightening in local regulations. Despite this, Airbnb became profitable in the second half of 2016, and 2017 marked the first full year of generating income. From 2018, there was a new growth stopped in 2019 by the COVID-19 pandemic.
